Regarding the Application to Remove Leasehold Interest for Auction:

A mortgage interest in the immovable property located on [address] owned by the debtor [name] (*i. e.* obligor of _____ branch) was created in favor of the applicant (*i. e.* creditor) [name] on [date] and was thereafter leased to the lessee on [date] with the lease duration from [commencement date] to [termination date]. This immovable property has been auctioned at the auction floor price of NT\$[*] on [date]; the immovable property was not auctioned off. It is clear that the leasehold interest negatively affects the applicant's mortgage right in the immovable property. Thus, the applicant applies to this branch, wishing to remove the leasehold interest prior to the next auction, so the applicant's rights can be protected.
